

## FIND A TRADESHOW BOOTH!

One of the challenges of finding a new tradeshow booth or an upgrade to your current exhibit is that if you don't know a ready source of booths to review, it can be tough. Just try surfing the internet searching for "new tradeshow booth" or "custom tradeshow booth" or something similar.

This document will remedy that situation.

We have teamed with great exhibit builders for years and provided clients with ready-made modular exhibits, or custom 'built-from-scratch' exhibits that wow visitors time and again.

### Exhibit Design Search

<http://communicationoneexhibits.exhibit-design-search.com/>

So let's start with what is likely the best source of tradeshow exhibits: **Exhibit Design Search from Classic Exhibits.** Long known as one of the best, if not *the* best, builder of exhibits in the industry, Exhibit Design Search is constantly updated with the latest inline and island designs, portable

exhibits, fabric back walls, fabric panel displays, table top exhibits, pop-ups, iPad and Surface stands, branded tables and chairs, counters and pedestals, workstations, accessories, rental exhibits, banner stands, table throws and so much more.

## Exhibitor's Handbook

<http://www.exhibitors-handbook.com/>

Up next is the Exhibitor's Handbook online catalog from Orbus, which has served the exhibit industry for decades. A great source of banner stands, banner systems, table throws and runners, pop-up displays, fabric displays, hanging and architectural signs and structures, folding display panels, lighting and accessories, the Exhibitor's Handbook doesn't have pricing information, but if you review the catalog and find something you like, it takes just a single phone call to us at 503-507-4110 to get that information. A digital version of the catalog is also included in this Exhibitor's Toolkit labeled *"Exhibitors' Handbook 2015 New Products."*
